MVP1 FINAL DOCUMENTATION MANIFEST AND ORCHESTRATION STATUS

Complete set of authoritative inputs to be given to Claude/Fable after documentation closure.

Document code	Version	Date
MIM-INSP-MVP1-MANIFEST	2.0 - MVP1 Final Documentation Contract	10 July 2026

BINDING DELIVERY RULE

MVP1 is governed by the complete 9-tab, 478-row customer/auditor spreadsheet baseline. No requirement may be silently removed, weakened, generalized away, replaced by mock behavior, or deferred to MVP2. Strategic BRD content is used only to close implementation-critical gaps and strengthen integrity, auditability, security, offline resilience and operability.

Primary audience	Status
Business, Design, Engineering, QA and Fable/Claude implementation teams	Authoritative implementation input - use with the MVP1 acceptance workbook

1. Orchestrator status

The documentation pack is intentionally structured so the user is not required to orchestrate scope across separate Fable sessions. The pack defines what each session owns, what all sessions share, how every requirement is accepted, what evidence is mandatory, what shortcuts are forbidden and when the agent is allowed to stop.

The documentation, not agent discretion, governs implementation. Fable receives the complete pack and must operate against the requirement IDs, storyboard contracts, channel boundaries, engine register, state model, acceptance criteria, evidence matrix and regression gates.

2. Final MVP1 artifacts

#	Artifact	File	Purpose
1	Enhanced MVP1 BRD	MIM_Inspection_MVP1_BRD_Enhanced_Final.pdf	Preserves original BRD and adds 20 native in-context storyboard/user-journey contracts plus implementation governance.
2	Native storyboard book	MIM_Inspection_MVP1_Native_Storyboard_Book_20_Pages.pdf	Exactly 20 high-contrast native PDF storyboard pages; one storyboard per page.
3	Breakdown + acceptance workbook	MIM_Inspection_MVP1_Breakdown_and_Acceptance_Contract.xlsx	478-row contract plus channels, engines, screen contracts, states, evidence, regression and Fable gates.
4	Web Portal Functional Specification	MIM_Inspection_MVP1_Web_Portal_Functional_Specification.pdf	Planning, visit management, review, Factory 360 and Operations Center.
5	Admin Portal Functional Specification	MIM_Inspection_MVP1_Admin_Portal_Functional_Specification.pdf	All mandatory configuration engines, publishing/versioning and runtime consumption.
6	iPad Functional Specification	MIM_Inspection_MVP1_iPad_Functional_Specification.pdf	Field-first, offline, telemetry, geofence, inspection, evidence, sync, submission and correction.
7	Claude/Fable Master Build Contract	MIM_Inspection_MVP1_Claude_Fable_Master_Build_Contract.pdf	Goal, discovery, order, loop, evidence, gates and stop conditions.
8	UI/UX Design Authority	MIM_Inspection_MVP1_UIUX_Design_Authority_Mobbin_MCP.pdf	Mobbin MCP research, synthesis, screen archetypes and readability rules.
9	Zero Regression and Evidence Contract	MIM_Inspection_MVP1_Zero_Regression_and_Evidence_Contract.pdf	Protected baseline, evidence proof, change control and re-certification.
10	MVP2 Handoff	MIM_Inspection_MVP2_Handoff_and_Continuation_Contract.pdf	Standalone continuation pack for a separate MVP2 ChatGPT session.

3. Coverage status

Area	Status
Spreadsheet scope	478 / 478 requirements preserved and individually accepted in workbook.
MVP1 modules	9 / 9 mandatory domains preserved.
Essential foundations	15 / 15 preserved.
Storyboard contracts	20 / 20 created as narrative + native page.
Channel boundaries	Admin, Web, iPad, Virtual and Operations explicitly defined.
Mandatory engines	12 registered with owner, consumers, runtime behavior, version/audit and acceptance proof.
Canonical state transitions	19 transitions defined.
Evidence classes	12 evidence baselines defined.
Fable completion gates	11 gates defined; stop only after final release certification.
MVP2 continuity	Standalone handoff complete; MVP2 remains paused in this stream.

4. What Fable receives by session

Session	Required input
Shared first read	Enhanced BRD; acceptance workbook; Fable contract; regression contract; UI/UX authority.
Admin session	Admin Functional Specification + engine register + storyboard SB03/SB13/SB18/SB20.
Web session	Web Functional Specification + storyboard SB04/SB05/SB10/SB11/SB12/SB17/SB19.
iPad session	iPad Functional Specification + storyboard SB06/SB07/SB08/SB14/SB15/SB16/SB17/SB19.
Virtual session	Enhanced BRD + SB09 + relevant acceptance rows and shared engine contracts.
Final integration/certification	All artifacts + full acceptance/evidence/regression workbook.
